## News From Mrs. Childs' Kindergarten Class

Kindergarten had a fun week preparing for St. Patrick's Day. The highlight of our celebration was our attempt to trap a leprechaun. The children prepared a trap at home as their March Family Project. We set the traps on Thursday before school was out and anxiously awaited their arrival through the night. Unfortunately, we did not catch a leprechaun but our traps were so clever that a few of them snagged their clothes and lost a button off of their jackets. The kids were excited to find golden nuggets at their desk in the morning and a classroom that had been all mixed up by those playful leprechaun creatures. Our celebration concluded by sorting and graphing Lucky Charms and a snack of rainbow chip cupcakes and sherbet punch. It was a magical day for Kindergarten!

## News from Mr. Joe & Balanced Life Skills

We are so grateful to Mr. Joe, who brought our Friendship Focus Day to life last month with students from preschool through eighth grade. At St. Andrew's, we strive to create a warm, caring environment for all of our students. To that end, we welcomed Mrs. Haines' proposal to begin a character development program to our school this fall. Every day of each month, we focus on one particular character trait and discuss it on the morning announcements and maintain the theme throughout our day. We were also fortunate enough to have Mr. Joe return to St. Andrew's to spend some time with our parents, who can now support our efforts to have a peaceful campus.

Those of you who care deeply about your children and the environment in which they live may wish to attend his free parent workshops, as described below.
